You will meet many new spirit guides who can help you in your life.

You will understand more about the cosmos, the part that you play in it and how ascension is occurring as we move into 5D.

You will complete an intensive ascension program to help you release trapped emotions and ascend into the crystalline body (light body).

Foundation Modules

You will receive access to these after you sign up only after you have completed Level 1. They must be watched before your first intensive.

Module 1: Creative Rings & Kundalini Energy

The creative rings above your head hold your personal power, and as such they can be cleaned and healed to empower you to feel the power within. Another type of personal power is your kundalini energy. Ancient Sanskrit talks of the kundalini flame that lives within your body, and runs from the root chakra upwards like a spiralled snake. In this module we ignite the flame and open up your kundalini energy sparking a deep spiritual awakening and the activation of your dormant gifts.

Module 2: Spiritual Freedom & Report Stations

How do we have spiritual freedom when living in a physical body? In this module you will learn how, whilst doing a guided meditation to help your body and soul become more aligned. The module finishes off by looking at 'Report Stations' which metaphysics believes are the stations where our soul leaves its knowledge before incarnating into the 3D Earth plane. We go and get our knowledge back, downloading what we need back into our energy field.

Module 3: Energy Space & The Genetic Entity

This is a transformative class where we not only look at the health and longevity of your body, and those you work with, but also heal it for a longer life. We also consider your personal space, and look at what your energy body is, whilst doing a guided meditation to understand where your 'energy space' is and how to create more of it- to help you feel more expanded.

Module 4: Analyzer and the analytical mind

If you still find yourself too stuck in the analytical mind then you may need to clear out your 'Analyzer'. Which is located at the back of the head, beneath the genetic entity. In this module we learn what the analyzer is, clear it out and turn it down, whilst doing a meditation to help turn down the internal 'chatter' and access more of your higher self.

Module 5: Sympathetic Nervous System & The File Clerk

In this module you learn how the sympathetic nervous system (SNS) works, and how it is controlled by the 'file clerk', which is responsible for storing the images in your chakras. The module ends with a meditation to heal the sympathetic nervous system and the file clerk so you can reintegrate your energy again and step into better health and wellbeing.

Module 6: Core Pictures & Picture Maker

Core pictures are pictures (beliefs) that you hold so tightly that you use them to define who you are. They can be seen as the first pictures you learnt in childhood or past lives and are so old that they can weigh you down and keep you stuck in self sabotaging patterns. In this transformational module you will learn what the 'picture maker' is whilst clearing it out so that your telepathy (clairaudience) can be improved.

Intensives

Intensive Weekends are where your progress and growth really happens, they are a combination of learning and practice. They take place on set dates and attendance is mandatory.

Classes are held between 12-5pm GMT / 7am-12pm EST, there are 2x 20mins breaks during the sessions.

Intensive Day 1

Teacher: Gloria Battini

Past Life Symbols & Past Life Auras

Past life symbols are symbols that are held in your or your client's energy field and represent a life of importance, such as a king or queen or one of fame and fortune. In this module you will learn how to read the symbols, whilst also healing the aura of any past lives that are bleeding through into this life and affecting you or the person you are reading. For example people who are into reenacting civil wars or medieval jousting.

Anchor Points & Streams Of Consciousness

There are many anchor points in the body where the soul 'anchors' into the physical body and there are times in your life when the soul can get kicked out of the anchor points so in this module we heal them and realign the body again. We also track the streams of your consciousness to track your thoughts and help you align to your mind, and not someone else's.

Mental Images & Energetic Systems

In real time we watch as hundreds of outdated pictures leave your space and take a look at some so we can understand more about you. Looking for unhelpful patterns we heal or delete them depending what they are. We also look at the concept of energetic machines which are pictures on autopilot that may not be serving you well right now, thus start breaking patterns and clear any resistance you may have.

Intensive Day 2

Teacher: Ruth Elisabeth Hancock

Channelling & Cosmic Energies

Channeling is not something we need to learn how to do as we are doing it all the time, but until we develop strong discernment we need to learn how to manage and control it. This is a beautiful session as we learn how to channel universal energies, and use them to heal our bodies and connect to other parts of the Universe.

Conscious Development, the Astral & Remote Viewing

The phenomena of Remote viewing has proven to us that our consciousness is not fixed into our physical body, and we can move around the Universe, through the mind. In this module you will learn the basics of how to remote view and understand what the astral plane is and how that fits into the larger Universe of today.

Negative Entities, Trickster spirits & Ghosts

This module runs through the many different beings and entities there are in the cosmos, and how they may come up in readings. As a professional healer and reader it is important to understand negative entities and trickster spirits from a place of love – not fear. We live in a telepathic universe and are surrounded by beings and entities everywhere, so we take a closer look at ‘negative entities’, spirit possession and healing the shadow, in an open minded and safe environment.

Intensive Day 3

Teacher: Gloria Battini

Alchemy

Alchemy and astrology were the first sciences, and show us how our ancestors used to work. Sacred geometry, elementals and spiritual energies, they all make up our realm, and the human body, showing us that we are multidimensional beings, living in a multidimensional world. Alchemy was achieved in the past, and the Hutchinson effect, evidences that it can still be achieved today. Nothing is solid or fixed and everything can be transformed into something else – including you.

The Alchemist

In this module you will meet a new spirit guide – your alchemist – as well as understand what alchemy is. Their job is to alchemise and transmute energy from dark to light or low to high, and you can use them in your body as well as the body of the people you work with. We will do a meditation to understand more about them, whether you have met before and why they have chosen to help you now, helping you to create a stronger bond. You will also learn what Alchemy is and how to use it for yourself and with your clients.

Intensive Day 4

Teacher: Ruth Elisabeth Hancock

Intuitive Anatomy

In this module you will build on the energy healing techniques from Level 1 by understanding more about the body and how dis-ease can take hold. Working with the different organs in the body we learn more about their state of being, whilst understanding why they are sick. The session ends by healing the different parts of the body so you can step back into better wellbeing and health.

Psychic surgeon

Introducing you to another new spirit guide, you will meet your psychic surgeon. They can be called on at any time to perform energetic surgeries, whilst your healing guide does the healing. They can do any surgical procedure, and even plug into the back of the hands of a surgeon to help them do a better job in the physical world. In this module you will learn how to perform psychic surgery using your psychic surgeon.

Intensive Day 5

Teachers: Ruth Elisabeth Hancock & Gloria Battini

Ascension 1, 2 and 3

Ascension is the process of moving from one dimension into the next. We are moving into the 5th dimension and as we pass through the 4th dimension we need to raise our frequency - and the collective frequency - to the frequency of light. This means letting go of anything that stops us doing that. We are simply moving from one set of belief structures to another one. This intensive helps you to release low vibrational energies and emotions from the body so you can ascend more easily and in flow. Whilst introducing you to your ascension guide who will be your support during this chaotic time in Earth's history.

Final Module: Becoming A Psychic Teacher (PDF)

Now that you have finished both Level 1 and 2 you are certified to become a psychic development teacher. This module runs through the practicalities of teaching, codes of conduct and how to set up your own business as a psychic trainer.
